

Data Analysis Virtual Internship – Elevvo Tech

Duration: 1 Month

Internship Type: Virtual

Domain: Data Analysis

Projects Completed

1. MySQL Analysis (Chinook Database)

- Performed SQL-based **order, customer, and revenue analysis**
- Identified **top customers, most popular tracks, and top revenue-generating artists**
- Compiled findings into a **business-friendly PDF report**

2. Time Series Analysis (Walmart Sales Forecasting – Kaggle)

- Conducted **time-based EDA** to analyze sales trends and seasonality
- Built a **forecasting model using XGBoost** for sales prediction
- Compared performance across time windows

3. Power BI Dashboard (Superstore Dataset – Kaggle)

- Designed a **6-page interactive dashboard** covering:
 - Customer analysis
 - Sales & profit trends
 - Time-based insights
 - Order & shipping KPIs
 - Geographic analysis
- Delivered a **visually compelling and interactive report**

4. Customer Segmentation (Olist Dataset – Kaggle)

- Conducted **order-level data analysis** and created a **Power BI dashboard**
- Built a **customer-level dataset** for deeper analysis
- Applied **KNN clustering** to segment customers into distinct groups
- Derived actionable insights for **customer targeting and marketing strategy**

Tools & Technologies

- **Python** (Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn)
- **MySQL**
- **Power BI**
- **Machine Learning** (XGBoost, KNN)
- **Google Drive + gdown** (for large dataset handling)
